

iruvinaï-punainthu

The chanDam for the song is :

[thana-thana] [thanantha] [thAna] [thana-thana] [thanantha] [thAna]
[thana-thana] [thanantha] [thAna] [thana-thAna]

(thana-thana) = 4 mA+Aas = thaka - Dhimi
(thanantha) = 4 mAtrAs = thaka - Dhimi
(thAna) = 3 mAtrAs = thakita

The 'thongal' has 5 mAtrAs. Guruji added 6 more to the 'thongal', to make it 11 mAtrAs. With this, each line of the song will have 2 units of 11 mAtrAs in each line, each unit made up of (thaka-Dhimi) (thaka-Dhimi) thakita.
