

allil-nEru-min

The chanDam for the song is :

[thayya] [thAnana]

[thana-thAna]

(thayya) = 3 mAtAas

= thakita

(thAnana) = 4 mAtrAs

= thaka - Dhimi

(thana-thAna) = 5 mAtrAs

= ?

The 'thongal' has 5 mAtrAs. Guruji added 1 more to the 'thongal', to make it 6 mAtrAs, equal (thaka - Dhimi - thaka).

With this, in each line, we have 13 mAtrAs = 6.5 aksharams in maDhyama kAlam = (thakita) (thaka - Dhimi) (thaka - Dhimi - thaka)
