

maruvum-anju-bhUtham

The chanDam for the song is :

[thanana] [thantha] [thAna] [thanana] [thantha] [thAna]
[thanana] [thantha] [thAna] [thana-thAna]

(thanana) = (thantha) = (thAna) = 3 mAttrAs = thakita

(thana-thAna) = 5 mAttrAs = ?

The first line has 6 units of 3 mAttrAs and the second 3 units of 3 mAttrAs followed by 'thongal' with 5 mAttrAs. Guruji added 1 more mAttrA to make it 6 mAttrAs, equal to 2 units of 3 mAttrAs.

Thus we have (6 + 5) = 11 units of 3 mAttrAs each = thisra Dhruvam in thisra nadai - eduppu 3 + 3 + 3 + 2
